

CLUB NET STAKES AND FUNDING STATISTICS

2014

NOTES FOR THE 2013/2014 CLUB NET STAKES AND FUNDING STATISTICS

The New Zealand Racing Board in conjunction with New Zealand Thoroughbred Racing, Harness Racing New Zealand and Greyhound Racing New Zealand, have compiled the following statistics for the 2013/14 racing season.

These statistics do not form part of the New Zealand Racing Board Annual Report and have not been subject to external audit.

The reported Board Direct and Code Funding totals reflect the payments made by the New Zealand Racing Board and the Codes consistent with the agreed funding policies, but do not take into account other income streams generated by the clubs independently.

The following Notes should be read in conjunction with the statistical information.

- 1. Number of race meetings** represents licenses issued to and run by racing clubs. This total includes all licenses issued where at least one race has been run.
- 2. Number of races run by club.** Because of abandoned races, meetings with more or less than 10 races and additional races run at existing meetings, these totals do not always equate to 10 races per meeting. For thoroughbred racing a full meeting will vary between 6 and 12 races. 12 races per meeting is the norm for Greyhound racing, with on occasion up to 16 being programmed.
- 3. Starters.** Is the total number of starts by horses or greyhounds. Individual animals may have started a number of times in a season.
- 4. A Club's 'Offcourse Turnover'** is defined as the racing totalisator sales generated by the TAB on a Club's product, excluding PickSix, Turbo Quaddie and Turbo Triple Trio. 'Oncourse Turnover' is the total of all racing totalisator sales at a Club's track on raceday. It includes betting on its own product, other track's product, as well as overseas and TAB specific product. In instances where a number of Club's operate in a common oncourse environment on raceday the ontrack turnover is attributed to the designated host Club. 'Racing FOB Turnover' is the total fixed odds sales from all sources on a Club's product. 'Export Turnover' is the NZD equivalent of sales generated by overseas betting agencies on an individual Club's product.
- 5. Net Stakes have been calculated** by taking the Club contribution to total Stakes paid to owners, inclusive of owner subsidies etc, and subtracting Nomination and Acceptance fees received by racing clubs. Taking into account these items provides a truer reflection of racing clubs' direct return to owners. Other issues to take into consideration when looking at net returns to participants at a code level are:
 - Thoroughbred - nominations and acceptances fees were charged on all races at Rating 75 and above, including all Group and Listed flat races and Prestige Jumps races. No nomination or acceptance fees were charged for Maiden to R65 races, but a non-acceptance and scratching fee was charged if a horse nominated but didn't accept or was scratched.
 - Harness - under the Rules of Harness Racing nominations and acceptance fees can only be charged in relation to Group races.
 - Greyhound - GRNZ makes significant direct financial contributions to Greyhound participants by way of the Owners MTA Unplaced Runners Scheme and the Breeders & Owners NZ Bred Maiden Win Scheme.
- 6. Net Funding paid to clubs** is the total amount distributed to an individual racing club by the code governing body. This figure includes the base funding paid under the Codes' Funding Policies, Oncourse turnover funding and various additional funding received by the Club. Additional funding may include Group, Listed and Feature race subsidies, Fixed Odds Racing turnover funding, meeting and venue payments, payments made to clubs for races taken for betting in Australia and other Guarantees, subsidies and payments.
- 7. % Net Stakes / Net Funding** is effectively a measure of how much of an individual racing club's funding is returned to owners in the form of stakes. It can be a useful point of comparison between clubs and between Codes. What should be noted, however, is the factors that can influence this figure - a club's commitment to other expenses, such as a training centre; a club's ability to source sponsorship or drive on course turnover depending on their location geographically and; the placement of their meeting in the Calendar.
